

Your Program Helped Our \$2 Million Company Grow to \$10 Million in a Single Year

- ✓ Highest growth ever
- ✓ Better coordination of key people

Paul Hendel
Partner
Kenco Construction

After 10 years in business, my two partners and I had built Kenco into one of the best regarded companies in our industry.

Unfortunately, we felt that we were not fully benefiting from the great reputation we had attained with our clients.

Between your “tasking” process and the weekly sessions, you helped us keep everyone working together, sticking to their commitments, and focusing on the same targets.

The results were great. In a single year, you helped us grow to five times our revenues, taking advantage of the valuable relationships we had developed with the insurance companies we had been working with.

The following years, we continued to grow even further, taking advantage of the unique expertise we had developed for these companies.

The weekly sessions you did with us were extremely valuable in helping us get past the day-to-day so we could focus on the growth we’re finally experiencing.

**“You helped us
keep everyone
working together,
sticking to their
commitments and
focusing on the
same targets...”**
